

The Intralinks Virtual Data Room (VDR)

Better, Faster Dealmaking

The world's leading VDR is faster and more intuitive than ever with integrated redaction, buyer engagement and usage dashboards, and much more. Intralinks is at the forefront of bringing value added innovation and best-in-class user experience relentlessly focused on helping to get deals done.

FASTER

- **Our fastest platform to date** – 50% faster* across the board; many standard application procedures are between 2x-4x faster and most multi-step workflows are 3x faster
- **Improved upload/download** – In-browser drag-and-drop and right-click bulk download saves time and streamlines critical actions
- **Deal Prep done right** – Launch a VDR in deal prep phase in minutes, and before executing a contract, for frictionless setup and instant collaboration with your deal team
- **Improved Q&A** – Enhanced show/hide and history viewing capabilities as well as an intuitive import/export process

*Based on internal benchmark testing

BETTER

- **Integrated Redaction** – Redact PII and other sensitive content from deal-related documents seamlessly inside the data room, saving time and reducing risk.
- **Data room insights** – Get clear, quick and valuable views into deal-participant engagement, and spend your time wisely
- **More versatile design and enhanced native mobile experience** – Responsive and adaptive to accommodate multi-device mobile users globally
- **M&A Workflow** – One-step document approval and automated publishing reduces risk and saves time
- **View as Other User** – See the data room documents exactly as they appear to invited participants, for added security

SECURE

- **Ultimate security paired with maximum flexibility** – With our IRM technology buyers can edit and save work, even when offline; while sellers can instantly revoke file access and manage documents that have been shared outside of the network
- **Enhanced permissions-setting capability** – View selected documents and their existing permissions structure within a folder while making access changes
- **More than 450 customer-led audits of our physical data centers** – Source code, processes, applications and personnel management
- **ISO 27001 certifications held by Intralinks** – Not reliant on indirect certifications of partners

Proven

Intralinks is trusted by

99% of the
Fortune
1000

to support sensitive,
high-value deals

Intralinks facilitates

Over
8,000
