

## Now there's a better alternative.

### The New Intralinks User Interface for Alternative Investments

Keep investors happy and coming back. Our new UI features innovations across the board that make fundraising and fund reporting simpler and faster.

#### A faster, more modern UI.

LPs are demanding a better client experience – better navigation, faster performance, more useful tools – that make it easier to get fund information and reports.

*We've got that.*

GPs want a secure, full-featured portal for better fundraising, reporting and investor communication management.

*We've got that, too.*

Announcing the new Intralinks UI designed specifically for Alternative Investment professionals.

#### Let's talk specifics.

Power your productivity with these new UI features:

- **Cleaner design** – easily navigate within an exchange and across funds
- **2x to 4x faster** across functions
- **No plugins required** – goodbye, Flash!
- **Drag-and-drop documents** – and folders – from desktop, directly into fund exchange
- **Simplified processes** for adding users to an Exchange, viewing documents directly from a web browser, and bulk-downloading documents
- **More mobility** – Intralinks is now more responsive than ever on your iOS and Android device

## Enhanced drag-and-drop

Upload documents simply and fast from your desktop to an Intralinks Exchange.

### 3 clicks

Exchange setup in hours,  
not days – move from  
desktop to exchange in  
just three clicks.

### 3x

### Faster

Average time saved on  
complex, multi-step user  
workflows, compared to  
our previous UI.

### A clearly better alternative.

More than two decades ago, we created the first virtual spaces secure enough to be trusted for high-value transactions by the world's leading financial institutions. Since then we've earned the business of more than 99% of the Fortune 1000 – and 100% of the Fortune 100.

We continue to build on that foundation with features that ensure today's fund managers can work with complete confidence – so they can forget about the technology and focus on their investors. Try us. We think you'll agree – we're clearly the best alternative for optimizing the investor experience.
