# All your deals. All in one place.

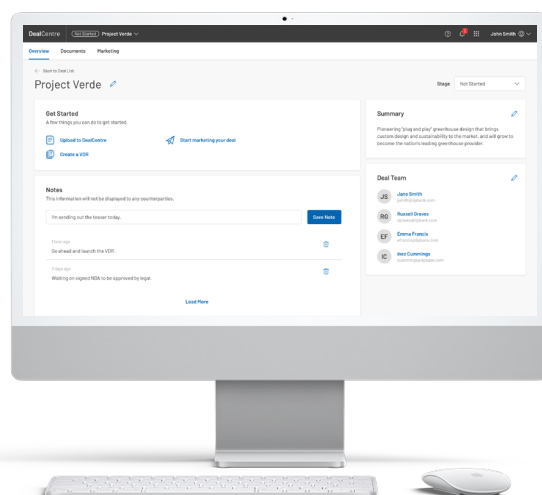

## Intralinks DealCentre™

Whether your firm conducted two deals last year – or two hundred – the deal process can be extremely intensive, spanning a range of activities that stretch beyond diligence.

These activities tend to create internal silos as each team, all at different stages of the deal process, works independently to bring their respective deal over the finish line.

Historically, the VDR has focused on buyer diligence, offering little visibility across deals – past, present or future – making it difficult for firms to gain a complete picture of all deals at every stage.

Until now.

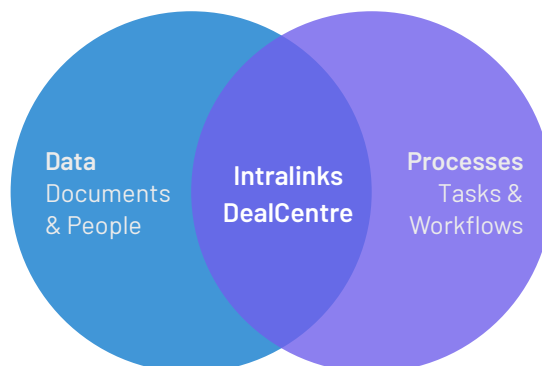

## What if your deal solution went beyond due diligence?

### Introducing DealCentre – The Nexus of Your Deal Ecosystem

Living at the intersection of data and process, Intralinks DealCentre truly transforms every aspect of your deals, from deal sourcing and evaluation, through negotiation and deal execution ... and beyond.

Utilizing the deal record as an artifact, deal information can now live on long after the VDR is closed, offering the ability to provide insights on deal opportunities in perpetuity.

# From deal transaction to **deal transformation**

DealCentre provides a centralized hub for all deal-related activities happening within your firm.

Specifically, DealCentre enables the viewing of deals at any stage – not only those undergoing diligence. Once a deal is created, it's reflected on the Deal List which summarizes key specifics related to the deal. This Deal List also offers a dashboard that shows the complete deal pipeline, capturing deals that already closed, those in progress and projected deals on the horizon. And with the self-launch Deal Prep feature available in DealCentre, you can save time while keeping your deal pipeline moving.

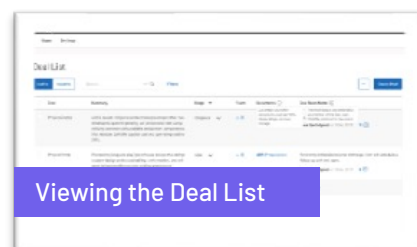

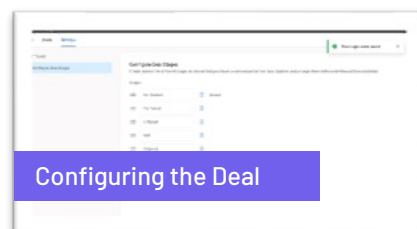

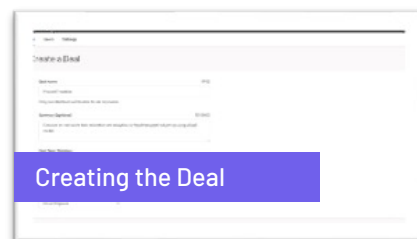

## DealCentre benefits

- Manage entire deal lifecycle from a single platform
- Gain complete visibility into your deal pipeline
- Kickoff deals faster with self-launch Deal Prep
- Identify and remove duplicative tasks to save time
- Optimize team resources through end-to-end deal transparency

## Telling a holistic, compelling story

With its user-centric experience, DealCentre empowers deal team members in any role across your firm to accomplish exactly what they need – within a single, dedicated space.

No more fragments. No more silos. Now see all your deals – past, present and future. All in one place.

## Experience the Clear Advantage.

Unleash the true power of your dealmaking efforts. Learn more about how Intralinks DealCentre can be the nucleus of your dealmaking ecosystem, allowing you to see your deals like never before.
